

OCMA 2025 Pool Tournament Changes

1. Eliminate B list – all players designated as B will revert to A status
2. 2025 Tournament and forward: to be eligible to play in the B Division, the 5 best players on the roster must have a CSR of less than 8,000 (1,600 per player).
Compusport has provided a Fargo to CSR converter. If the CSR star rating is 3 or more no conversion is necessary. If a player has neither a CSR or a Fargo rating they are ineligible to participate in the B division. There is no individual Player Cap, just the total of the top 5 players. If changes are made to the original roster, the best 5 players will be recalculated if necessary.
